

STRUCTURED FEEDBACK

Students and faculty members at the College have provided structured input. A questionnaire with 05 questions and suggestions was prepared and distributed among the College's faculty members, while a questionnaire with 09 questions and suggestions was distributed among the students. A total of 50 students and 16 faculty members completed the survey.

Based on the findings, it was discovered that a substantial number of students are satisfied with the course content, entrance process, evaluation, and other campus facilities. Some students have recommended that a separate library, sports field, and hostel facilities be built. The students suggestions were taken seriously and most of the facilities have been provided to students like sports Department has been upgraded with good facilities of sports accessories, most of the class rooms has been upgraded with IT facilities like Interactive Panels, BSNL wifi internet and seating arrangement etc. The faculty's suggestion has already been taken into account, and additional equipment/facilities for labs have been provided. The topic of further upgrading laboratories to research level has been taken up with the Higher Education Department and is currently being worked on. Some faculty members requested that projectors be installed in the classrooms, and their suggestions were taken into consideration, and the majority of the classrooms were upgraded.

Suggestions from Arts faculty members for the introduction of M.A., change in some portion of syllabus and change in the examination pattern based on annually will not be accepted because they are not under the control of the College administration, instead the matter will be brought up with the University for the Same Courses to be introduced.
